Bracken Engineering Gains Registered Roof Consultant

Stephen R. Towne with Bracken Engineering Inc in Tampa, FL has earned the title REGISTERED ROOF CONSULTANT (RRC) from RCI, Inc. Mr. Towne qualified for this designation by meeting the requirements of a rigorous two-part program based on verifiable levels of education, ethics and experience, and successfully completing a challenging examination. Mr. Towne is a Project Manager with Bracken Engineering's Building Envelope Group and now joins an elite group of over 300 Registered Roof Consultants in the U.S. and Canada.

The RRC registration is administered by RCI from its international headquarters in Raleigh, NC and is rapidly gaining recognition throughout North America as a key element preferred by building owners, public and private, when retaining the services of a roof consultant.

RCI was founded in 1983 as a 501 (c)(6) nonprofit organization and its professional members offer unbiased design, repair planning, quality assurance, legal testimony and general roofing, waterproofing, and building envelope services. RCI's roof consultants adhere to a strict code of ethics that offers unprejudiced professional services without affiliation with any product or manufacturer.

Bracken Engineering is a structural engineering firm that provides consulting services for commercial and residential properties. Our professional staff is expert in assessment and restoration services for commercial, residential, disaster response and forensic applications. We provide engineering expertise that addresses public safety, cost and risk management issues for the insurance, legal, construction and real estate industries.
